Notes to the interim consolidated Financial Statements

For the three and six months ended June 30, 2013 and 2012
(Tabular amounts are stated in thousands of Canadian dollars except share and per share amounts) (unaudited)

1. Background and general information

Spyglass Resources Corp. ("Spyglass" or the "Company") is an oil and gas exploration and production company that conducts its operations in the Western Canadian Sedimentary Basin. Spyglass' head office is located at 1700, 250 2nd St. SW, Calgary, Alberta T2P 0C1. The Company's common shares are listed on the TSX under the symbol "SGL".

On March 28, 2013, Pace Oil & Gas Ltd. ("Pace"), Charger Energy Corp. ("Charger") and AvenEx Energy Corp ("AvenEx") completed a Plan of Arrangement (the "Arrangement") whereby Spyglass Resources Corp. was formed through the amalgamation of Pace, Charger and AvenEx. Pace subdivided its shares on a basis of 1.3 post-subdivided Pace shares for each 1.0 pre-subdivided Pace share. Pace shares were issued in exchange for the outstanding Charger shares on a basis of 0.18 Pace share for each Charger share and Pace shares were then issued in exchange for the outstanding AvenEx shares on a basis of 1.0 Pace share for each AvenEx share. Pace was then renamed to Spyglass Resources Corp. The Arrangement is accounted for as a business combination (note 3) whereby Pace is deemed to be the acquirer and as such comparative amounts reflect the history of Pace. Prior period common share, option, restricted share award, preferred share award and deferred share award information has been adjusted for the share exchange ratio associated with the Arrangement. Pursuant to the Arrangement, Spyglass elected to perform a reduction of stated capital whereby the Company offset its deficit, contributed surplus and accumulated other comprehensive loss against share capital upon closing of the arrangement. The deficit at June 30, 2013 reflects the operations of Spyglass from March 28, 2013 to June 30, 2013.

These interim consolidated financial statements were approved and authorized for issuance by the Board of Directors on August 12, 2013.

2. Basis of presentation & significant accounting policies

The condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, "Interim Financial Reporting". The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2012, which have been prepared in accordance with IFRS as issued by the IASB.

Recent accounting pronouncements and amendments adopted effective January 1, 2013 as disclosed in the annual consolidated financial statements for the year ended December 31, 2012 have no impact on the Company's consolidated financial statements other than disclosure requirements which have been incorporated. The new IFRS pronouncements and amendments adopted include IFRS 10 – *Consolidation*, IFRS 11 – *Joint Arrangements*, IFRS 12 – *Disclosure of Interest in Other Entities*, IFRS 13 – *Fair Value Measurement*, IAS 17 – *Separate Financial Statements*, IAS 28 – *Investments in Associates and Joint Ventures,* IAS 1 – *Presentation of Financial Statements* and IAS 32 – *Financial Instruments: Presentation*.

3. Strategic business combination and reorganization

On March 28, 2013 the plan of Arrangement was completed whereby Spyglass was formed through the amalgamation of Pace, Charger and AvenEx. In accordance with IFRS, the Arrangement is accounted for as a business combination whereby Pace is deemed to be the acquirer. Had the Arrangement closed on January 1, 2013, Spyglass' oil and gas sales and oil and gas sales less royalties, transportation and operating expenses for the six months ended June 30, 2013 would have been approximately $147.1 million and $50.8 million respectively. This is not necessarily representative of future revenues and operations. The effect on net income is not determinable. Spyglass' oil and gas sales and oil and gas sales less royalties, transportation and operating expenses for the six months ended June 30, 2013 includes approximately $21.2 million and $15.4 million respectively, attributable to the acquirees from March 28, 2013 to June 30, 2013.

(a) Charger Energy Corp.

On March 28, 2013 the acquisition of all issued and outstanding shares of Charger was completed by way of plan of arrangement. Charger was a public oil and gas company, listed on the TSX Venture Exchange, with properties primarily in Alberta. Total consideration of $27.1 million included the issuance of 12,117,821 shares as valued on closing. A gain on acquisition arises when the cost of an acquisition is less than the fair value of the assets acquired. The acquisition of Charger resulted in an excess of net assets acquired over consideration transferred of $35.2 million. This gain was recognized and is included in gain on business combination and other income.

The following are the estimated fair values of Charger:

Charger Energy Corp.		
Net assets acquired		
Property, plant and equipment	$	103,923
Exploration & evaluation assets		16,029
Deferred income tax assets		23,480
Working capital surplus (deficiency)		(5,301)
Bank indebtedness		(62,650)
Derivative liability		(2,047)
Decommissioning liabilities		(11,118)
	$	62,316
Consideration		
Shares issued (12,117,821 common shares)	$	27,144
Excess of net assets acquired over consideration transferred	$	35,172

The recognized amounts of identifiable assets and liabilities assumed are preliminary estimates by Spyglass' management and are subject to change. Preliminary fair values are calculated using discounted cash flow models considering reserve estimates.

(b) AvenEx Energy Corp.

On March 28, 2013 the acquisition of all issued and outstanding shares of AvenEx was completed by way of plan of arrangement. AvenEx was a public oil and gas company, listed on the TSX, with properties primarily in Alberta. Total consideration of $123.1 million included the issuance of 54,967,543 shares as valued on closing. A gain on acquisition arises when the cost of an acquisition is less than the fair value of the assets acquired. The acquisition of AvenEx resulted in an excess of net assets acquired over consideration transferred of $46.7 million. This gain was recognized and is included in gain on business combination and other income.

The following are the estimated fair values of AvenEx:

AvenEx Energy Corp.		
Net assets acquired		
Property, plant and equipment	$	130,697
Exploration & evaluation assets		31,444
Deferred income tax assets		28,672
Working capital surplus (deficiency)		(7,819)
Cash		11,890
Derivative liability		(215)
Decommissioning liabilities		(24,848)
	$	169,821
Consideration		
Shares issued (54,967,543 common shares)	$	123,127
Excess of net assets acquired over consideration transferred	$	46,694

On February 15, 2013, AvenEx sold the assets of Elbow River Marketing Limited Partnership ("Elbow River"). As part of the terms of sale, the purchaser of the assets have continued operations under the Elbow River Marketing name. All operations and obligations are backstopped and indemnified by the purchaser until they are formally assumed. Management has performed credit analysis on the purchaser and noted no concerns.

The recognized amounts of identifiable assets and liabilities assumed are preliminary estimates by Spyglass' management and are subject to change. Preliminary fair values are calculated using discounted cash flow models considering reserve estimates.

4. Exploration and evaluation assets

During 2012, the Company recorded E&E impairment of $67.2 million ($50.4 million net of tax) in the Haro South area as a result of changes in management's future development plans and operational performance to date. The asset was written down to its estimated recoverable amount based on the fair value less cost to sell. The fair value less cost to sell was based on estimates of proceeds from the sale of the Company's infrastructure, facilities and land in the area.

5. Property, plant and equipment

Balance, June 30, 2013	**$ 1,128,567**	**$ (404,104)**	**$ 724,463**

Future development costs of the Company's proved plus probable reserves of $348.2 million (December 31, 2012 – $144.1 million) were included in the depletion calculation.

During 2012, a decline in forecasted oil and natural gas prices caused the Company to record a total of $123.0 million ($92.3 million net of tax) of impairments.

6. Long-term debt

On March 28, 2013, Spyglass extinguished its $300 million revolving term credit facility with a syndicate of banks and repaid in full the balance outstanding on this facility. As at December 31, 2012 $199.8 million was drawn on this facility and $1.1 million in letters of credit were outstanding. On March 28, 2013, Spyglass entered into a $400 million revolving term credit facility with a syndicate of banks, which was subsequently renewed and amended on May 22, 2013. The facility is available on a revolving basis until April 29, 2014. On April 29, 2014 at the Company's discretion, the facility is available on a non-revolving basis for a period of 366 days, at which time the facility would be due and payable. Alternatively, the facility may be extended for a further 364-day period at the request of the Company, subject to approval by the banks. The credit facility bears interest at the bank's prime rate or Bankers' Acceptance rates plus stamping fees. The facility is secured by a $1 billion first floating charge debenture and a general security agreement. At June 30, 2013, $280.4 million was drawn on this facility. The available level of credit is subject to semi-annual review by the syndicate of banks and may be adjusted for changes in reserves, commodity prices and other factors. The Company had $0.9 million in letters of credit outstanding at June 30, 2013.

7. Decommissioning liabilities

The Company's decommissioning obligations result from net ownership interests in petroleum and natural gas assets including well sites, gathering systems and processing facilities. The Company estimates the total undiscounted amount of cash flow required to settle its decommissioning obligations is approximately $391.4 million (December 31, 2012 – $258.3 million) which will be incurred over the operating lives of the assets, with the majority of costs to be incurred between 2017 and 2050. An inflation factor of 2% has been applied to the estimated decommissioning cost at June 30, 2013 and December 31, 2012. The Company's credit-adjusted risk-free rate of 7% was used to calculate the fair value of the decommissioning liabilities at June 30, 2013 and December 31, 2012.

A reconciliation of the decommissioning liability is provided below:

	June 30, 2013	December 31, 2012
Balance, beginning of period	**$ 49,541**	$ 46,484

8. Share Capital

(a) Authorized:

The authorized share capital consists of an unlimited number of common shares without par value.

(b) Issued and outstanding:

	Number of Shares [1]	**Amount**
Common shares:		
Balance, December 31, 2011	61,363,549	$ 432,668

Balance, June 30, 2013	**128,076,752**	**$ 494,292**

[1] The number of common shares has been adjusted to reflect Pace's share exchange ratio of 1.3 to 1 pursuant to the Arragement (note 1 & 3)

(c) Dividends:

In April 2013, the Company initiated a monthly dividend of $0.0225 per share. Dividends declared during the six months ended June 30, 2013 totaled $8.6 million (six months ended June 30, 2012 – nil) in accordance with the table provided below:

2013 Dividends	**Declaration Date**	**Record Date**	**Payment Date**	**Amount Per Common Share**
April	April 9, 2013	April 26, 2013	May 15, 2013	$ 0.0225

June	June 17, 2013	June 27, 2013	July 15, 2013	0.0225

On July 9, 2013, Spyglass declared the July dividend of $0.0225 per share payable on August 15, 2013 to shareholders of record on July 26, 2013.

(d) Earnings per share:

Basic earnings per share amounts are calculated by dividing net income (loss) for the period by the weighted average number of common shares outstanding during the periods.

The following table shows the calculation of basic and diluted earnings per share for the periods:

	Three months ended June 30,		**Six months ended June 30,**	
	2013	2012	**2013**	2012
Net income (loss) for the period	**$ 246**	$ (56,581)	**$ 61,599**	$ (61,567)
Weighted average number of common shares - basic & diluted	**128,076,752**	61,275,341	**95,831,224**	61,319,426
Basic & Diluted net income (loss) per share	**$ -**	$ (0.92)	**$ 0.64**	$ (1.00)

As of June 30, 2013 the Company has no dilutive instruments outstanding. For the three and six months ended June 30, 2012 3,599,126 options were anti-dilutive.

(e) Long-term incentive plans

In Q2, the Company implemented a new long-term incentive plan for employees and management which includes a blend of two types of share based awards depending on roles and responsibilities within the organization: restricted share units ("RSUs") and performance share units ("PSUs"). RSUs vest evenly over a three year period. PSUs vest three years from the date of grants and the awards granted are subject to a performance multiplier ranging from 0 to 2. The Company also grants director restricted share units ("DRSU") to non-management directors of the organization. DRSUs vest three years from the date of grant. RSUs, PSUs and DRSUs are to be settled in cash, based on the share price at the time of vesting. The number of share equivalent units at the time of vesting increases commensurately with each dividend declared by the Company after the grant date.

A summary of RSU, PSU and DRSU activity is presented below:

	Number of RSUs	Number of PSUs	Number of DRSUs
Balance, December 31, 2012	-	-	-
Granted	1,521,316	1,043,398	140,843
Reinvested through notional dividends	18,440	12,761	1,723
Forfeited	(13,540)	-	-
Settled	-	-	-
Balance, June 30, 2013	**1,526,216**	**1,056,159**	**142,566**

(f) Long-term incentive plans prior to the Arrangement

The Company's previous long-term incentive plan for employees and management included a blend of three types of share based awards depending on roles and responsibilities within the organization: restricted share awards ("RSAs"), performance share awards ("PSAs") and stock options. RSA vested evenly over a three year period. PSA vested three years from the date of grant and the number of awards granted was subject to a multiplier ranging from 0 to 2. As a result of the Arrangement (see note 3), vesting of RSAs, PSAs and options was accelerated to the Arrangement closing date of March 28, 2013 for the calculation of LTIP expense resulting in an additional $1.3 million of expense recorded in Q4 2012 and $0.7 million of expense recorded in Q1 2013.

The Company also previously had granted deferred share awards ("DSAs") to non-management directors of the organization. DSAs vest immediately but are not settled until the Board member ceased to be a member of the Board or if "change in control" provisions are triggered in accordance with the award terms and conditions.

A summary of RSA, PSA and DSA activity is presented below:

	Number of RSAs [1]	Number of PSAs [1]	Number of DSAs [1]
Balance, December 31, 2011	586,689	406,380	68,250
Granted	759,178	-	-
Forfeited or expired	(95,043)	(20,540)	-
Settled	(192,299)	-	-
Balance, December 31, 2012	1,058,525	385,840	68,250
Forfeited or expired	(86,109)	-	-
Settled	(972,416)	(385,840)	(68,250)
Balance, June 30, 2013	**-**	**-**	**-**

[1] The number of RSAs, PSAs and DSAs has been adjusted to reflect Pace's share exchange ratio of 1.3 to 1 pursuant to the Arrangement (note 1 & 3)

All outstanding RSAs, PSAs and DSAs vested upon closing of the Arrangement at a value of $2.77 per award. PSAs were subject to a multiplier of 0.8. A total payout of $2.9 million was made subsequent in Q2 2013 to settle the RSAs, PSAs and DSAs.

The Company's stock option plan allowed common shares to be granted under option to employees, directors and other persons who provide ongoing management or consulting services to the Company. Stock options were granted for a term of three years and vested one third every nine months. The exercise price of each option equaled the market price of the Company's common shares on the date of the grant. The Company's stock option plan was replaced in Q2 with the new LTIP plan.

The summary of stock option activity is presented below:

	Number of options [1]	Weighted average exercise price [1]	
Balance, December 31, 2011	4,996,809	$	5.56
Granted	257,898		3.42
Forfeited or expired	(1,036,789)		5.96
Balance, December 31, 2012	4,217,918	$	5.33
Exercised	(4,501)		1.92
Forfeited or expired	(4,213,417)		5.33
Balance, June 30, 2013	**-**	**$**	**-**
Exercisable at June 30, 2013	**-**	**$**	**-**

[1] Number of options and weigted average exercise prices have been adjusted to reflect Pace's share exchange ratio of 1.3 to 1 pursuant to the Arrangement (note 1 & 3)

Pursuant to the Arrangement all outstanding unexercised options were cancelled immediately prior to closing for consideration of $0.001 per pre subdivided option. 2,979,389 pre-subdivided options were cancelled upon closing of the arrangement.

(g) Long-term incentive plan expense

The Company accounts for its LTIP using the fair value method. Under this method, a compensation expense is charged over the vesting period. During the three and six months ended June 30, 2013, the Company expensed $0.2 million and $0.9 million of LTIP compensation respectively (three and six months ended June, 2012 - $0.1 million and $1.4 respectively).

The fair value of options granted under the previous LTIP were estimated on the date of grant using the Black-Scholes option-pricing model.

9. Financial instruments

Financial instruments comprise cash and cash equivalents, accounts receivable, financial derivative instruments, investments, accounts payable and accrued liabilities, dividends payable, long-term compensation liability and long-term debt.

There are three levels of fair value by which a financial instrument can be classified:

Level 1- Quoted prices in active markets for identical assets and liabilities such as traded securities on a registered exchange where there are a sufficient frequency and volume of transactions to provide ongoing pricing information.

Level 2- Inputs other than quoted prices that are observable for the asset and liability either directly or indirectly such as quoted forward prices for commodities, time value and volatility factors which can be substantially observed or corroborated in the marketplace; and

Level 3- Inputs that are not based on observable market data

The Company's policy is to recognize transfers into and out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. There were no transfers between the fair value hierarchy levels in the period.

The Company's finance department is responsible for performing the valuation of financial instruments including level 3 fair values. The valuation process and results are reviewed and approved by management at least once every quarter, in line with the Company's quarterly reporting dates.

The fair values of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and dividends payable approximate their carrying amounts due to their short-term maturities. The Company's long-term debt bears interest at a floating market rate and accordingly the fair market value approximates the carrying value.

The long term compensation liability is recorded at fair value at each reporting period based on quoted market prices of the underlying shares and is a level 1 financial instrument.

The Company's investment is classified as fair value through profit and loss and is an investment in a private company that is not quoted in an active market. This investment is carried at fair value as a level 3 instrument. The determination of the fair value of the investment is a recurring measurement. As the investment is in a privately held oil and natural gas service company, the fair value is estimated using the most reliable data available. This information includes earnings, cashflows and equity offerings. Spyglass used this information and has recorded the investment at its estimated fair value of $0.3 million. In 2011, a temporary reduction in value of $0.8 million was recorded as a $0.7 million loss in other comprehensive income net of $0.1 million deferred tax recovery.

The Company's financial derivative instruments are carried at fair value on a recurring basis at each reporting date and are considered a Level 2 instrument. The fair value is determined by reference to independent monthly forward settlement prices, currency rates and interest rates.

The following table summarizes Spyglass' financial instruments as at June 30, 2013 and December 31, 2012:

10. Environmental Liabilities & Insurance Receivable

On May 19, 2012, Spyglass was made aware of a breach in an above-ground section of wellhead piping that resulted in a temporary release of an estimated 800 cubic meters of oil. The release occurred as a result of a hole caused by internal pit corrosion that was accelerated through stray electrical currents in the surrounding area. Spyglass began containment and recovery operations within hours of notification. Following mechanical recovery operations to remove the leaked oil, the Spyglass team worked with Alberta Environment and Sustainable Resources Development (AESRD) to conduct two planned and controlled burns of remaining oil. Spyglass is continuing its surface and ground water sampling, and wildlife monitoring systems and continues to work with AESRD to further refine a site remediation plan. The majority of the site is being bio-remediated and naturally attenuated and an excavation contingency plan for the area surrounding the well head is being developed if the need arises.

The estimated cost of the site clean-up and remediation is $25.0 million. This incident falls within the Company's insurance coverage and the Company has received confirmation of coverage from all its insurance providers and received $16.9 million of insurance proceeds during 2012. Spyglass has paid $20.4 million of clean-up and remediation costs as of June 30, 2013 with a further $1.6 million recorded in accrued liabilities for work performed to June 30, 2013 and $3.0 million accrued in other liabilities for future costs expected to be incurred. Spyglass has recorded $8.0 million in accounts receivable for insurance receivable as at June 30, 2013. Spyglass has evaluated the credit worthiness of its insurance providers and has concluded it to be adequate.
